ALWAYS AHEAD

At AVAAL, we believe that regardless of your professional goals, life-long learning is essential to long term success.

👁 VISION

With the worldwide growth of the transportation industry, we aim to bring technological advances and electronic services to foster communications, develop tracking capabilities and optimize operational efficiency. AVAAL will be the ultimate solutions specialist for all aspects within the transportation industry.

👤 PROFILE

AVAAL Technology Solutions is an industry leader in providing cost-effective, and time-efficient solutions to members of the transportation industry. Whether you are looking to expand your potential through education and training, seek professional consulting services to help jump start and grow your business, or take advantage of cutting-edge technologies, AVAAL is at your service.

🎯 MISSION

At AVAAL, our global mission is to support the transportation industry, to help transportation companies add value at every stage of development, from inception, until success is achieved.

🎓 TRAINING

AVAAL offers strategic variations of training solutions for both corporate clients and individual students who wish to challenge themselves through innovative thinking and practical experiences. After the completion of our programs, our students have successfully started their own businesses, leading to a promising career in the transportation industry.

🤝 CONSULTING

AVAAL can provide you with all the necessary permits and authorities needed to operate your commercial motor-vehicle business in Canada and the United States. Increase your return on investments with C-TPAT, PIP, ISA, and CSA certifications, or enhance your reach with customs bonds.

💻 SOFTWARE

Our powerful software is equipped with innovative technology to help reduce your costs and develop more control over your business. Improve your dispatch and fleet management, gain financial visibility and enhanced connectivity with our complete suite of software solutions and mobile applications. AVAAL is continuously investing in state-of-the-art technology backed up by first-class customer service and support.
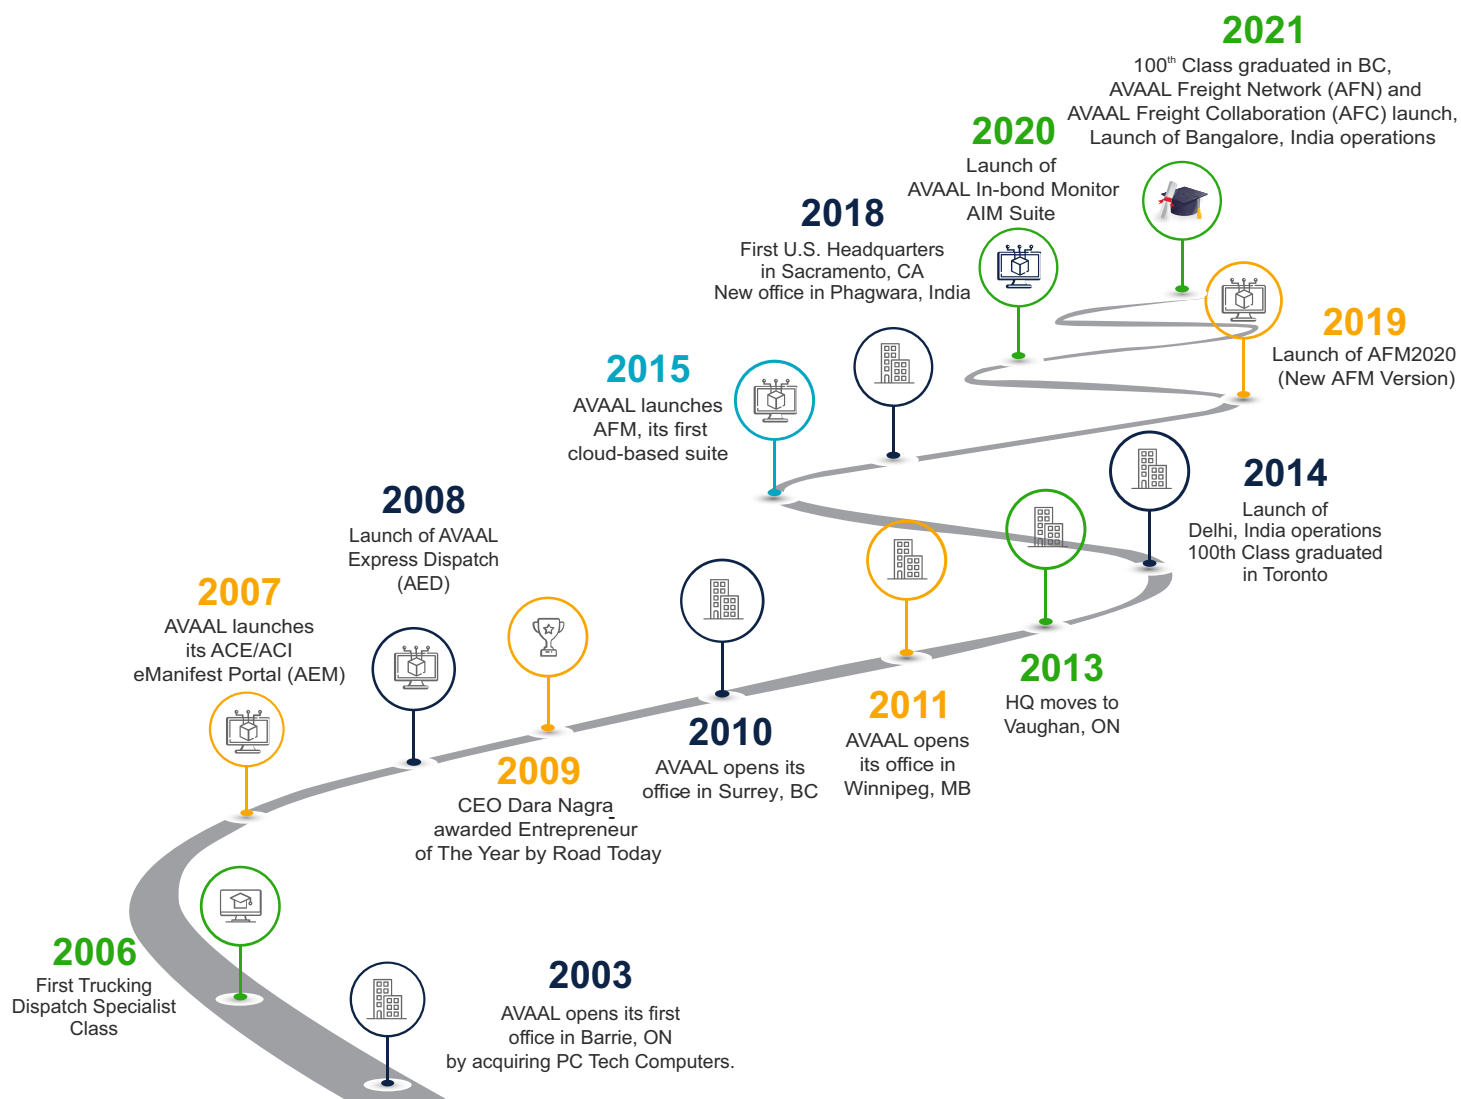

MESSAGE FROM CEO

AVAAL lives by its motto every single day by striving to produce globally compatible, user friendly technology solutions to increase productivity, minimize costs, and gain control of your transportation and logistics operations.

EXPERIENCE.

LEARN. GROW.

At AVAAL, our goal is to integrate collaborative and experiential learning in all our courses so that our students not only gain knowledge but also practical experience required to be successful in this competitive industry.

AVAAL offers industry-renowned programs in which students find success at an outstanding rate. Since 2006, thousands of students have graduated from AVAAL, most of whom either have started their own successful business or have found a rewarding career in the transportation industry.

TRUCKING DISPATCH SPECIALIST Online & In-person

This course provides an introduction to concepts and issues in operations management and is designed to give a firm foundation in the basics of managing materials. It examines the influence of transportation on decisions made by businesses, from the standpoints of the users of transportation and the carrier management. It focuses on processes that add value through the production and delivery of services and products in the supply chain, and the tools needed to manage these processes effectively.

TOPICS INCLUDE

- ✓ Business Set-up
- ✓ Freight Matching
- ✓ Route Management
- ✓ Authorities & Permits
- ✓ Border Crossing
- ✓ ACE/ACI e-Manifest
- ✓ C-TPAT, PIP & CSA

- ✓ Specialized Freight
- ✓ TL/LTL Shipments
- ✓ Order Management
- ✓ Freight Brokerage
- ✓ Freight Pricing
- ✓ Negotiation Skills
- ✓ Record Keeping

- ✓ Policies & Procedures
- ✓ Bonded Carriers
- ✓ Accounting Principles
- ✓ Business Growth
- ✓ Account Management
- ✓ Loadboards
- ✓ AFM Software

SAFETY & COMPLIANCE SPECIALIST Online & In-person

Trucking is the most regulated industry in Canada and the USA. This course provides a full overview of safety and compliance requirements for the trucking industry.

TOPICS INCLUDE

- ✓ National Safety Code
- ✓ Commercial Vehicle Operator's Registration
- ✓ Facility Audit, Operator Monitoring & Intervention
- ✓ Safety Programs Record-Keeping & Driver Files
- ✓ Preventive Maintenance, Record-Keeping & Vehicle Files
- ✓ Hours of Service

- ✓ Dangerous Goods
- ✓ Vehicle Weights & Dimensions
- ✓ Driver & Vehicle Licensing
- ✓ Cargo Securing
- ✓ FMCSA – DOT Regulations & Compliance

TRANSPORTATION OF DANGEROUS GOODS Online & In-person

Transport Canada developed safety standards and regulations in order to promote public safety in the Transportation of Dangerous Goods. This course covers federally and locally regulated guidelines that dictate how these goods must be transported and how to use an Emergency Response Plan to manage accidents or safety issues.

TOPICS INCLUDE

- ✓ Dangerous Goods Regulations
- ✓ Classes of Dangerous Goods
- ✓ Identification of Dangerous Goods and Communication of Hazards

- ✓ Documentation for Transportation of Dangerous Goods
- ✓ Emergency Response Plan

GAIN SKILLS & KNOWLEDGE

Our courses will help you develop useful, real-world skills alongside experiencing a sense of fulfilment and enrichment. We strive to educate and help progress individual self-development, so that you can capitalize on your strengths in the marketplace and in life.

HOURS OF SERVICE & LOG BOOK Online & In-person

The Government of Canada and the Transportation Industry have developed rules and regulations to help reduce the number and severity of collisions. This course covers the Hours of Service Regulations in Canada and differences in regulations while driving in the USA. Students will learn how to complete logbooks accurately in order to meet compliance standards set by the concerned regulatory body.

TOPICS INCLUDE

- ✓ Hours of Service Regulations
- ✓ Cumulative hour cycle rules
- ✓ Logbook & Record Keeping requirements
- ✓ Procedures for completing logbooks
- ✓ Enforcement & Penalties

FREIGHT FORWARDING Online & In-person

AVAAL's Fast Track Course in Freight Forwarding offers a unique blend of International and Canadian industry perspective. The course will cover details of operations including documentation requirements in transportation by road, rail, water and air as well as warehousing, international trade, customs clearance, insurance, import-export documentation, and marketing.

TOPICS INCLUDE

- ✓ Transportation & Distribution
- ✓ International Trade
- ✓ Canada Customs
- ✓ Intermediate Transportation Agencies

IN-BOND SHIPMENT HANDLING & COMPLIANCE
Online & In-person

This training is intended to provide Bonded Carriers with the required knowledge and tools to handle in-bond shipping, how to follow the rules and regulations associated with movements of in-bond shipments, and how to avoid hefty penalties as a result of non-compliance.

TOPICS INCLUDE

- ✓ Arrival & Export procedures
- ✓ Bonded shipments documentation and timeline
- ✓ CBSA/CBP Rules & Regulations
- ✓ Important measures to avoid penalties

PROFESSIONAL SOLUTIONS

Ready to launch your own transportation company but not sure where to start?
AVAAL can assist you in obtaining the necessary permits to operate your company in Canada
& the USA. We also specialize in business license registration.

BUSINESS INCORPORATION

Federal and provincial, extra provincial, business name registration

AUTHORITIES & PERMITS

Our Standard Company Setup Package Includes:

⊘ CVOR/NSC Registration	⊘ EIN Registration	⊘ New York HUT Registration
⊘ IFTA Registration	⊘ SCAC Code	⊘ Kentucky KYU Number
⊘ IRP Registration	⊘ DOT Number	⊘ New Mexico WDT Registration
⊘ Canadian Carrier Code	⊘ MC Number	⊘ PARS & PAPS Labels
⊘ UCR Registration	⊘ BOC-3 Process Agent Fling	

IRP Services: Other Services:

⊘ Original Fleet Registration	⊘ Plate Termination	⊘ Oversize Permits
⊘ Plate Renewal	⊘ Fleet Weight Changes	⊘ US DTOPS Transponders
⊘ Plate Replacement		⊘ Drug Test Collection Centre
⊘ Cab Card Replacement		⊘ Authorities Renewal Packages

SAFETY & COMPLIANCE

⊘ Carrier: Safety Manual, Facility Audit Guide, Carrier Package

⊘ Fleet: Complete Maintenance Plan, Truck Binder, DriveClean Certificate

⊘ Drivers: Driver Qualification File, Drug and Alcohol policy, Pre-employment screening program

IFTA, NY, NM, KY, & OR TAX FILING

The International Fuel Tax Agreement requires quarterly fuel tax return filings for all carriers. The above US states collect Highway Use Taxes that also require quarterly filing. Let AVAAL take care of the tedious number crunching.

USA AND CANADA CUSTOMS BONDS

Improve the scope and flexibility of your business as a Bonded Carrier. Canada and USA Bonded carrier status allows you to move goods inland to a customs office in the respective country to be later released by customs, or to move goods through Canada or the USA while enroute between two points in the other country. A bonded carrier posts security with the Canada Border Services Agency to cover the following:

✓ To move goods to an inland CBSA office in order to have the shipment released.

✓ To apply to the Post-Audit Program.

✓ To move goods "in transit" through Canada.

✓ To apply to the Customs Self Assessment Program and/or the Free and Secure Trade (FAST) Program.

FREIGHT BROKER/FORWARDER BONDS

The Freight Broker/Forwarder Bond or BMC-84 surety bond is a license surety bond required by the Federal Motor Carrier Safety Administration (FMCSA) in the amount of $75,000. This surety bond is required by all freight brokers operating in the United States.

STAY AHEAD OF THE COMPETITION

Almost all exports and imports cross the Canada-US border without incident, a remarkable achievement for a trading relationship worth almost two billion dollars a day. To achieve this milestone, both governments have implemented various cross-border initiatives. It is very important for transport companies to learn and to implement these programs.

CERTIFICATIONS

Increase the profitablity and prestige of your business with an industry-recognized designation. In partnership with the Canada Customs Border Services Agency (CBSA) and the U.S. Customs and Border Protection (CBP), these voluntary programs can provide you with many cost-saving benefits.

The Free and Secure Trade (FAST) program is a commercial clearance program designed to ensure safety and security while expediting legitimate trade across the Canada-United States border.

- ✓ Reduces delivery times and landed costs of imports.
- ✓ Minimal documentation required to clear the border.
- ✓ Increases certainty at the border, resulting in fewer delays.
- ✓ Can be used as proof of identify (US and Canadian citizens).

The Customs-Trade Partnership Against Terrorism (C-TPAT) is a voluntary partnership between Customs and Border Protection (CBP) and the international trade community to secure the international supply chain.

- ✓ Automatic Access to Free and Secure Trade (FAST).
- ✓ Reduced Automated Targeting System (ATS) scoring, for less frequent inspections.
- ✓ Shipments flagged for inspection are directed to the front during random inspections.
- ✓ C-TPAT "Best Practices" members will rarely face random inspections.
- ✓ Expedited Clearance Times.
- ✓ Reduced enforcement and compliance inspections.
- ✓ Access to CBP Training seminars open only to certified members.

Partners in Protection (PIP) is a Canada Border Services Agency (CBSA) program that enlists the cooperation of private industry to enhance border and trade chain security, combat organized crime and terrorism, and help detect and prevent contraband smuggling.

- ✓ Required by CSA participants for Automatic Access to the Free and Secure Trade (FAST) program.
- ✓ Reduced Automated Targeting System (ATS) scoring, for less frequent inspections.
- ✓ Shipments flagged for inspection are directed to the front during random inspections.
- ✓ Enhanced reputation as being low-risk companies.
- ✓ Reduced enforcement and compliance inspections.
- ✓ Shipments are eligible for expedited cross-border clearance through Canada's Free and Secure Trade (FAST).

CERTIFIED
CROSS-BORDER CARRIER

Becoming a certified cross-border carrier translates into building business relationships based on trust and transparency with both the Canadian and U.S. customs when trading between the two countries. It's never too early or too late. Getting certified is a real opportunity to succeed in trucking. With an impeccable success rate and decades of experience, there is no better partner than AVAAL.

CERTIFICATIONS

Customs Self Assessment (CSA) is a CBSA program which gives approved importers the benefits of a streamlined accounting and payment process for all imported goods. As an alternative clearance stream for low risk, high-volume imports, CSA essentially shifts customs accounting and payment away from single transactions in favor of an approach based on bulk monthly reporting.

- ✓ Improved speed & efficiency at customs.
- ✓ Minimal paperwork to provide at customs.
- ✓ Improved compliance with Canadian Customs Regulation.
- ✓ Expedited Clearance Times.
- ✓ Enhanced Automatic Access to the Free and Secure Trade (FAST) program.
- ✓ Shipments Streamlined clearance option for CSA eligible goods.

The Importer Self-Assessment (ISA) program enables importers to check their internal compliance procedures and processes with CBP laws and regulations. This program was created with the intention to help support a stable CBP and importer relationship that is mutually beneficial to both parties - having a strong line of communication between the parties.

- ✓ Exemption from the Regulatory Audit's (RA) audit pool.
- ✓ Access to key liaison officials and National Account Managers.
- ✓ Entitled to receive free of charge entry summary trade data (ITRAC Data), including analysis support.
- ✓ Cost saving and enhanced efficiency at the border.

SmartWay is a voluntary logistics partnership program that helps businesses move goods efficiently while keeping fuel costs and environmental impact at a minimum. It also assists companies to benchmark and adjust to industry best practices to obtain the goal of enhancing the sustainability of their supply chains.

- ✓ Boost productivity, reduce emissions and be more competitive.
- ✓ Save fuel and operating costs.
- ✓ Be part of a North America-wide network of concerned professionals.
- ✓ Access new technologies that improve performance.
- ✓ Receive an annual benchmarking report to analyze fleet company data.

CORPORATE BRANDING

Excelling in business logistics not only requires advanced technological software but also perfect brand positioning, exquisite corporate identity, and continuous development on existing web architecture. AVAAL understands the comprehensive and integral nature of the business and thus, provides our clients with a gamut of such features.

CORPORATE BRANDING

- ✓ .NET stand-alone and web based application development
- ✓ Migration of both desktop and web applications to .NET platform
- ✓ .NET custom software development
- ✓ Database-driven website development
- ✓ Custom web application development

HOSTING

- ✓ Email Setup and Support
- ✓ Website support and bug fixes
- ✓ Client Portal (Access projects which contain company files and links)
- ✓ Search Engine Optimization (if applicable)

SUPPORT

- ✓ Security Solutions
- ✓ Storage and Back-up solutions
- ✓ Messaging and Collaborative solutions

MANAGE YOUR OPERATIONS

Our wide range of software includes Regular, Broker, Auto, and Intermodal to provide you with simpler and effective solutions. Choose the desktop version of AVAAL Express Dispatch Suite or our web-based AVAAL Freight Management Suite according to your requirements and watch your business scale to new heights. Our dispatch software can also be integrated with our secure and efficient e-Manifest portal to decrease your border-crossing hassles.

SOFTWARE

Technology is continuously evolving and it is important for your business to adopt the best technology solutions in the market. Over the years we have mastered the art of offering cutting-edge technology solutions to our clients in the transportation industry. We encourage businesses to embrace technology and global connectivity to efficiently grow and increase productivity.

AVAAL Freight Management   Regular | Broker | Auto | Intermodal

Technology is critical to the success of transportation companies these days. Having comprehensive and easy to use freight management software will help your business become more efficient and successful. AFM line of products includes AFM Suite, a cloud-based freight management suite, and AED Suite, a desktop-based software. Both come with multiple versions to accommodate your operations whether you are a freight carrier, auto hauler, intermodal, broker, or a 3PL company. AFM and AED come with four core modules; Dispatching, Accounting, Safety, and Reporting.

AVAAL Freight Network

Networking is one of the most important factors to succeed in business. It allows you access to opportunities you might not be able to find on your own. In order to make networking easy and convenient, AVAAL has introduced AFN Connect as part of AVAAL Freight Network. AFN Connect brings AVAAL customers closer together. Users subscribed to AFM, AED, or AFC are automatically part of AFN. The network provides access to thousands of carriers and brokers so they can seamlessly communicate with each other and stay up to date with the latest trends and industry news.

AVAAL Freight Collaboration

One major aspect of trucking is to continuously find better ways to optimize day-to-day logistics so you can maximize your revenue and minimize your costs. At AVAAL, we believe the best approach to achieve top results is to collaborate with your peers. Hence, AVAAL Freight Collaboration Suite was born. AFC Suite is the market place where supply and demand meet. Using AFC Suite, users can collaborate to arrange freight and transportation, sell and buy equipments, Drop-and-Hook trailers, and communicate with other users.

AVAAL Freight Trade

The U.S. and Canada enjoy the world's most lucrative and enduring trade relationship. Both governments have historically recognized the importance of cross-border trade and have taken steps to minimize tariffs, consolidate regulatory mandates, and facilitate the customs clearance process. AVAAL Electronic Manifest Suite connects with both CBP (ACE) and CBSA (ACI) to provide full automation and ensure smooth processes every time your truck crosses the border. AVAAL In-Bond Manager Suite helps bonded carriers manage their In-Bond shipments and stay compliant with the current requirements.

AVAAL Freight Mobile Apps

Honoring our commitment to add value at every stage of your business, AVAAL offers you a complete suite of mobile applications for your drivers, carriers, dispatchers, and management teams to ensure maximum flexibility and convenience. With the increasing reliance on smartphones and mobile applications, it is worthwhile to adopt mobile usage in your day-to-day operations.

IMPROVE YOUR
EFFICIENCY & PRODUCTIVITY

Over the years we have mastered the art of offering cutting-edge technology solutions to our clients in the Transportation Industry. Our Transportation Management Software offers a wide array of tools that are designed to boost your productivity and keep you one step ahead of the competition.

AVAAL FREIGHT MANAGEMENT

Regular | Broker | Auto | Intermodal

AFM SUITE
Cloud Based

AED SUITE
Desktop Based

AFM and AED Suite are software solutions for Carriers, Freight Brokers, and Freight Forwarders. They offer the ultimate solution for freight accounting, freight auditing, freight tracking and many other freight management services. You can manage multiple freight, send and receive important documents, access status of shipments, manage profitability and analyze financial trends conveniently in one single place.

CORE FEATURES

⊘ **FOUR CORE MODULES**

Our software covers the full cycle of your operations: *Dispatching, Accounting, Safety*, and *Reporting*.

⊘ **MULTI- COMPANY MANAGEMENT**

Manage all of your companies using one single account. The multi-layered architecture keeps each company's data secure and organized.

⊘ **CLOUD BACKUP**

We understand the need of security, privacy, and data integrity and thus we have powerful cloud back up to combat any emergency issues.

⊘ **ANNUAL OR MONTHLY SUBSCRIPTION**

Our pricing model offers you optimal flexibility to be aligned with your financial needs.

⊘ **MULTI-USER MANAGEMENT**

You can create users for each member of your team, assign them specific roles and permissions, and set up a customized access for each user.

⊘ **24X7 LIVE SUPPORT**

Our team of experts is available round the clock to address any issues and listen to all your recommendations.

CORE INTEGRATION

AVAAL suite of products can be integrated with any API enabled 3rd party providers

⊘ **MILEAGE AND ROUTING**

Google, PC*Miler

⊘ **TRACKING AND VISIBILITY**

Macropoint, Omnitracs, Project44, Fourkites, Transflo

⊘ **ACCOUNTING AND PAYROLL**

QuickBooks, AVAAL Payroll Module, IFTA Reporting

⊘ **TOLL**

iPass, EZpass, Amnestor, BestPass

⊘ **ELD**

Keeptruckin, Samsara, Geotab, PeopleNet, Omnitracs

⊘ **AFN CONNECT**

The easiest way to connect with AFM/AED customers

⊘ **COMMUNICATION AND NOTIFICATION**

Mobile apps, Email, SMS

⊘ **CARRIER MONITORING**

RMIS, Carrier411, SaferWatch

⊘ **FUEL**

ProMiles, BVD, Chevron, Pilot

⊘ **EDI**

All standard EDI types (e.g. 204, 210, 214, 990)

⊘ **AEM INTEGRATION**

Fully integrated with our border crossing portal AVAAL eManifest

BUSINESS
NETWORKING

It's a no brainer to claim that business networking is one of the best tools to grow in any industry. AVAAL uses its technology and software to establish a true network between its customers to make connections and collaborations easy as a breeze, helping thousands of businesses to seamlessly exchange services and support each other.

AVAAL FREIGHT NETWORK & COLLOBORATION

AFN CONNECT
AVAAL Freight Network

AFN Connect is exclusive to AVAAL customers. It allows users to be part of true social platform where they can add connections, exchange real-time messages, and be updated with trends and news. Moreover, AFN Connect is fully integrated with AFM Suite and AED Suite which means users can seamlessly assign and receive loads from other AFN members using AFM or AED. The goal is to automate the exchange between users and replace phone calls and emails by a fully integrated hassle-free process.

CORE FEATURES

NETWORKING MADE EASY

Send and accept connections from other AFN members and manage your own network.

BIDDING AND NEGOTIATION

When sending quotes to multiple carriers, the bidding feature makes the process streamlined and fully transparent. It provides our users with real-time status updates on the bids received and also notifies the carriers whether their offers have been accepted or denied.

MESSAGING AND POSTING

As a true social network, AFN's messaging feature will let you privately chat in real-time with other customers or post messages to all your connections.

LATEST TRENDS AND NEWS

Keep up with the latest news and top headlines from the industry.

FULL PROCESS AUTOMATION

The easiest way to send and accept loads: fully automated process to generate orders and send carriers/driver sheets with just a push of a button. No more paperwork or endless phones and emails.

ADVERTISE

Looking to buy or sell equipment or want to advertise your services? You can post your ad on the AFN Dashboard to gain visibility and spread the word.

AFC SUITE
AVAAL Freight Collaboration

Whether you're a carrier looking for freight or a broker looking to arrange transportation, AFC Suite is connecting the dots by matching both parties. AFC Suite offers a user-friendly design to make the matching process easy and fast. Users have the option to tailor their search for loads, trucks, and trailers using our advanced search tools and be updated on the go when their search criteria is met.

CORE FEATURES

SEAMLESS COLLABORATION

Easily collaborate with other customers by matching loads, trucks, and trailers.

INSTANT NOTIFICATION

Get real-time updates when new loads or trucks are available.

FLEXIBLE SEARCH OPTIONS

Multiple filters and sorting options including Origin/Destination, radius, lanes, and equipment type to provide optimal results. Set up favourite searches according to your preference.

FULL INTEGRATION

Sync your loads with your AFM/AED Suite to avoid duplicate data entry.

TRACKING AND VISIBILITY

Easily track your trucks with live GPS updates from our Driver App.

ROUTE OPTIMIZATION

Find backhaul freight within seconds and reduce your empty miles.

OPTIMIZE YOUR PERFORMANCE

AFM and AED Suite with their multiple versions of Regular, Broker, Auto, and Intermodal, meet all customer-specific needs with ease. With enough flexibility, our software solutions increase your profitability and optimize your business.

Aug   Sep   Oct   Nov   Dec

AVAAL FREIGHT TRADE

AEM SUITE
AVAAL Electronic Manifest

AEM Suite is connected to both CBP (Customs & Border Protection – U.S. Customs) using their Automatic Commercial Environment (ACE) and CBSA (Canada Border and Services Agency – Canada Customs) using their Advance Commercial Information (ACI) system in order to increase cross border trade efficiencies and improve cargo clearance and risk assessment screening. AEM Suite is fully integrated with AFM and AED Suite. This allows users to create eManifests right from the trip page in AFM/AED.

CORE FEATURES

24/7 LIVE SUPPORT

AVAAL has a dedicated team of professionals available to assist you 24/7.

USER FRIENDLY

Our easy-to-use web portal is simple to navigate & designed for even the most novice user.

FAX SERVICE

AVAAL offers a 24/7 Premium Fax Service for those who prefer not to create manifests themselves.

COST EFFICIENT

Outsource your border-crossing services to AVAAL & reduce your costs while maximizing your ROI.

CUSTOMS CLEARANCE

Let AVAAL deal with customs brokers for you & reduce your border wait times. (Available with Premium Fax Service.)

PAPS AND PARS NOTIFICATION

Automatically receive notifications when PAPS & PARS shipments are cleared by customs.

AIM SUITE
AVAAL In-bond Monitor

CBP has made it mandatory to electronically report in-bond exports and arrivals. With AVAAL In-bond Monitor Suite, you can ensure compliance with CBP in-bond requirements including electronic reporting of diversions, exports, arrivals, and status requests. AIM Suite makes the process of handling in-bond shipments easy and hassle-free.

CORE FEATURES

24/7 LIVE SUPPORT

AVAAL has a dedicated team of professionals available to assist you 24/7.

ELECTRONIC ARRIVAL & EXPORT

Within seconds, you can easily arrive and export your in-bond shipments. A simple and fast process, paperless and hassle-free.

IN-BOND PORT DIVERSION

Now changing ports is easier than ever. No more back and forth communication with CBP port offices.

LIVE STATUS UPDATES
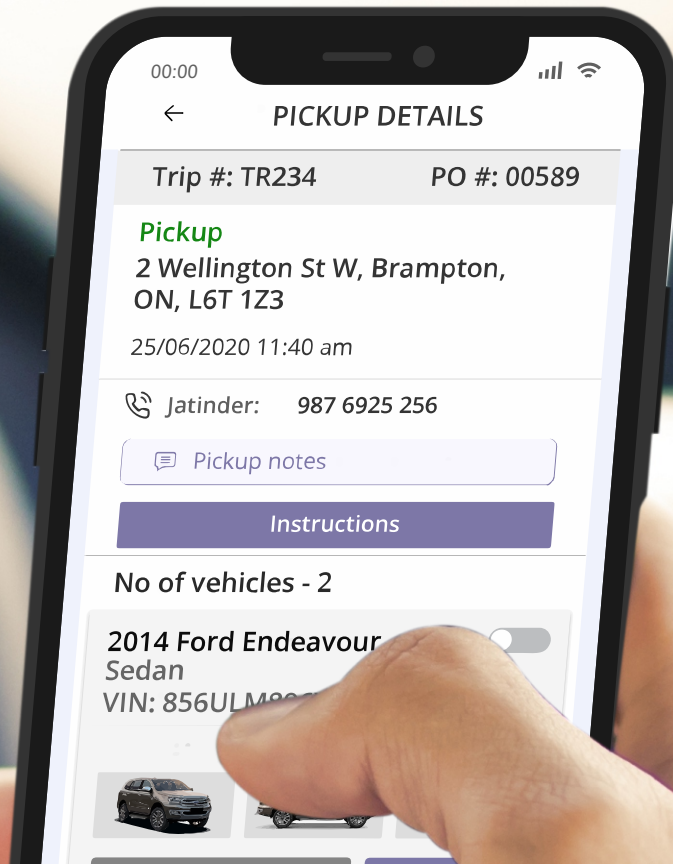

Stay up to date with the status of your in-bond shipments. AIM will provide you with real-time updates within a click of a button.

STAY COMPLIANT

It's necessary to meet CBP rules and regulations in order to avoid hefty fines and penalties. With AIM, staying compliant becomes painless task.
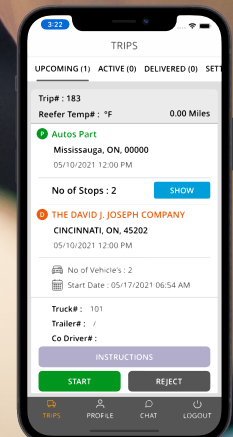

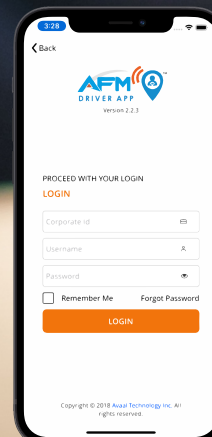

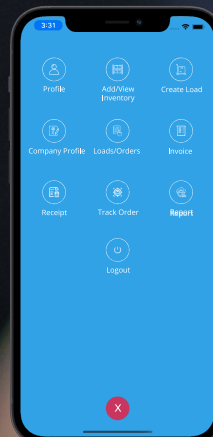

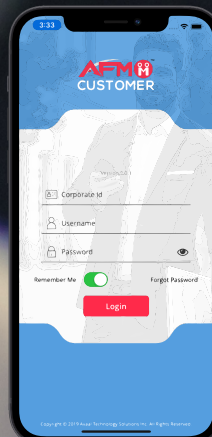

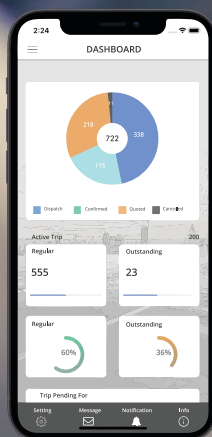

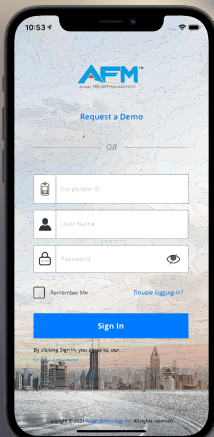

INTEGRATED REPORTING

Get the full picture of your in-bond shipments activity using the reporting module. It also comes with advanced sorting and filtering options to tailor your reporting according to your needs.

EASY ACCESSIBILITY

No matter the time or place, stay connected to your business with our mobile applications. Not only can you manage all your operations right from your smartphone but also you will enhance the workflow and communication between your drivers and dispatchers.

AVAAL FREIGHT MOBILE APPS

AVAAL Freight Mobile Applications simply bring daily tasks that are usually done in office using computers to smartphone users. Dispatchers, Accountant, Safety, and Management teams can easily manage their operations using AFM/AED Suite apps as well as their cross-border activity in the AEM Suite app. Drivers can enjoy the Driver app which syncs in real-time with AFM and AED Suite along with the AEM Driver app to check their shipment status on the go.

AFM/AED

AFM SUITE APP

- ⊘ Create orders, dispatch trips, pay your drivers and send invoices to your customers
- ⊘ From drivers and trucks to customers and vendors, enter and save new accounts to your database
- ⊘ Create and send BOL/POD
- ⊘ Get real time alerts and reminders regarding truck and load status
- ⊘ Track your equipment

DRIVER APP

- ⊘ Update trip status right from the app which gets automatically updated in AFM
- ⊘ Get real time alerts and reminders regarding the assigned loads
- ⊘ Attach digitally signed BOL/POD
- ⊘ Upload vehicle inspection report
- ⊘ Instant communication with dispatcher

CUSTOMER APP

- ⊘ Send orders directly to AFM or AED Suite
- ⊘ Track your shipments on the go
- ⊘ Get real time notifications and ETAs
- ⊘ Easily manage your inventory
- ⊘ See full order and trip history

AEM

AEM SUITE APP

- ⊘ Create and submit your ACE/ACI e-Manifests
- ⊘ Get instant notifications from CBP and CBSA
- ⊘ Check your PAPS and PARS status
- ⊘ Manage your in-bond shipments
- ⊘ Generate your e-Manifest reports

DRIVER APP

- ⊘ Check your PAPS and PARS on the go
- ⊘ Automatically receive notification when PARS and PAPS shipments are cleared by customs
- ⊘ Email/Fax printable Manifest
- ⊘ Instant communication with dispatcher
